Photography. Photography was discovered in this way: Daguerre was lying on a couch in his attic and saw a sunbeam fall upon a spot in the darkened room. He was startled to see the objects on the street vividly portrayed in all their colors—in fact, a panorama of the incidents outside. He studied the subject, and his search in the mystery was the beginning of all that is beautiful in photography today.

A Different Place. "Don't use too long words," said an author. "On the way to reading by train and at a town nestled beside the river I came out on the platform and drew in deep breaths of the pure, delicious air. "Isn't this invigorating?" I said to the brakeman. "No, sir; it's Conshohocken," said he.

Cursed God and Was Paralyzed.

The Hickory Democrat says that Abe Moser, a man of 50 years and a well-to-do farmer of that county, last June became worried about the drought and the loss of crops until he became unbalanced—although up to the moment he appeared sane enough—got out in his yard one day and cursed the Almighty to all the variations of profanity he could muster, because no rain fell to relieve the crops. Following this he got out his shotgun and discharged it three times in the air as a token of his feelings toward Deity. All at once he collapsed, and from that time to this has lain helpless on his bed, unable to move or speak, recognizing no one. Physicians called and found him completely paralyzed.

The work of stringing the wires between Henderson and Raleigh will be completed this week, and the sub-station building near the Harriet mills is also nearing completion. Transformers and switchboard equipments are being unloaded and will be installed as rapidly as possible. The company hopes to have the line completed and the long distance current turned on by the first of December.

Your Money Back if You are not Satisfied with the Medicine We Recommend.
We are so positive that our remedy will permanently relieve constipation, no matter how chronic it may be, that we offer to furnish the medicine at our expense should it fail to produce satisfactory results.
It is worse than useless to attempt to cure constipation with cathartics, laxatives or enemas; do much harm. They cause a reaction, irritate, and weaken the bowels and tend to make constipation more chronic. Besides, their use becomes a habit that is dangerous.
Constipation is caused by a weakness of the nerves and muscles of the large intestine or descending colon. To expect permanent relief you must therefore tone up and strengthen these organs and restore them to healthier activity.
We want you to try Lexal. Order Lexal on our recommendation. They are exceedingly pleasant to take, being eaten like candy, and are ideal for children, delicate persons, and old folks, as well as for the robust. They act directly on the nerves and muscles of the bowels, and consequently have a neutral action on other associate organs or glands. They do not purge, cause excessive looseness, nor create any inconvenience whatever. They may be taken at any time, day or night. They will positively relieve chronic or habitual constipation, if not of surgical variety, and the myriads of associate or dependent chronic ailments, if taken with regularity for a reasonable length of time. 12 tablets, 10 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Sold in Henderson only at our store—The Rexall Store, W. W. Parker.

Cure for Typhoid Fever.
Up to the beginning of the manœuvre along the Mexican border the typhoid fever serum was employed only in the army and navy. Its efficacy was thoroughly established in the manœuvres, and now the use of the serum is spreading rapidly. Hospital nurses are being vaccinated with the serum. At a late session of the American Hospital Association in New York, it was made evident that the use of the serum is being extended rapidly in the general practice of physicians.
The serum leaves no ill effect. The immunity which it causes exceeds that given by vaccination in the case of smallpox. Its results are all that could be desired, and there is every reason why it should be general, particularly in those localities that suffer yearly from many typhoid cases. The use of the serum is already well established in hospitals and in the homes of the people it should be as common as vaccination against smallpox is to-day.—Times-Dispatch.
